# Geetanjali Chawla

## software Devloper

"Passionate and quick-learning recent graduate with expertise in MERN stack development, including MongoDB, Express.js, React.js, and Node.js. Completed a 3-month internship in web application development. Proficient in JavaScript, jQuery, and Bootstrap. Skilled in building full-stack web applications, with strengths in front-end design, back-end development, and problem-solving. Seeking a challenging role as a MERN stack developer to contribute to organizational success."

## Experience

2023 - 2023

Daylogic infotech I internship

### MERN Stack intern

- Collaborated with UI/UX designers to develop user-friendly interfaces using React.js and Tailwind.
- Developed interactive features using JavaScript.
- Troubleshoot front-end issues using debugging tools such as Chrome DevTools.
- Stayed up-to-date with front-end development trends and best practices.
- Optimized web application performance with techniques like lazy loading and code splitting.
- Documented front-end development processes for consistency and clarity.
- Worked closely with back-end developers to ensure seamless integration.

## Projects

2023 - 2023

It Company website

### Daylogic website

- Developed the front-end of a full website using React.js and tailwind.
- Collaborated with UI/UX designers to create a user-friendly interface.
- Implemented interactive features with JavaScript and jQuery.
- Conducted usability testing and improved the user experience.
- Optimized website performance through techniques like lazy loading and image optimization.
- Documented front-end processes for easy reference and maintenance.
- Worked closely with back-end team for seamless integration.
- Demonstrated strong understanding of front-end development best practices and tools.

2023 - Present

An EdTech app

### Ease Learning

- Built an EdTech website with features for video posting, deleting, and updating.
- Developed the back-end using Node.js, Express, Mongoose, and Node modules such as Cloudinary and Multer for image and video handling.
- Implemented user authentication and authorization for secure access to sensitive data.
- Designed and developed the front-end with React and Redux for a user-friendly interface.
- Conducted thorough testing and integrated the front-end with the database.
- Demonstrated full-stack proficiency and used best practices and tools for a dynamic and robust website.

## Volunteering

Teaching Assistant, DSA Problem Solving Course, Codehelp by Love Babar

- Assisted Love Babar in providing a paid online DSA problem-solving course, conducting code reviews and facilitating discussions.
- Demonstrated strong DSA problem-solving skills and excellent teaching abilities.
- Volunteered time and effort to support learners in their programming journeys
